Student Google Account FAQ

When will my child have a username and password to be able to access their Chromebook that was issued by the school?

A: Student accounts are created nightly around midnight by Aeries

When will my child have a Google email address from ACUSD?

A: Their Google email address comes with their Google account created by Aeries

How will I be contacted with my student's google email, password and username password for using technology and logging onto google classroom?

A: Individual school sites are responsible for notifying students of their usernames and passwords. Students just added to and created by Aeries will follow this username format [first name. last name @acUSD.org] and password format: [first initial].[last initial].[2-digit birth month][2-digit birth date]. For Mike Smith born on December 22 it would be: mike.smith@acUSD.org and password m.s.1222

Students that have an account from last year will retain their password from last year

Who do I contact if I have not received my student's login information to access technology and sign into their google classrooms?

A: Aeries shows their Google email/username. Each school's Google site admin(s) have access to confirm student account usernames and reset their passwords if needed.
